CHEFOO AFFAIR

May cause International Complications

RUSSIAN FLEET DISPERSED

China may Cast in its lot with Japan and thus Bring on a World wide War. Russia Searches British Steamers

RUSSIAN FLEET DISPERSED.

London, August 12th.—A dispatch from Tokio to the Japanese legation here says according to reports received up to the present, the Russian squadron emerged from Port Arthur, was attacked by our fleet south of Yento. The fleet was dispersed and a battleship and cruiser took refuge at Kiao Chou; another destroyer took to Chefoo.

On August 11th five Russian battle ships, a cruiser probably the Diana, a hospital ship and several torpedo boat destroyers seemed to regain Port Arthur. The other vessels of the fleet are believed to be damaged. It is believed here that the majority of the Russian fleet has returned to Port Arthur.

RUSSIA'S OBJECT BALKED.

Chefoo, August 12th.—The report that two Russian cruisers and one torpedo boat destroyer had entered the harbor of Tsing Tau Kiao Chou Bay last night Thursday, is confirmed. The German cruiser Faust Bismarck and the Tia are preparing to leave Chefoo for that port. Two Russian ships at Port Arthur to join the Vladivostok squadron has been thwarted.

JAPS HAVE RUSSIAN VESSELS IN A TRAP.

Berlin, August 12th.—The Foreign Office confirms the arrival last night at Tsing Chou at the entrance of Kiao Chou Bay, the German concession of the Russian battleship Czarevitch but not the protected cruiser, Askold, the protected cruiser Novik and an unnamed torpedo boat. The Czarevitch is not seaworthy, having been damaged in the fight. The foreign office is sending instructions today to the German authorities at Tsing Chou to the effect that the Novik and the torpedo boat must leave the harbor within the twenty-four hours prescribed by international law.

RUSSIA HEAPS INDIGNITIES ON BRITAIN.

Gibraltar, August 13.—The British steamer Ronda from Hull for Naples passed here today and signalled that she was boarded by a Russian cruiser yesterday, the purser's and other documents examined, and the hold searched.

THE CZAREVITCH A HELPLESS WRECK.

St. Petersburg, August 13.—The machinery of the Czarevitch was so knocked about during the fight as to render it almost useless. It lost 210 officers and men killed and sixty wounded. St. Petersburg, Aug. 13.—Rear-Admiral Witthoff was killed on the battleship Czarevitch during Wednesday's engagement. With him being blown off. Several officers were killed and many wounded. The battleship was badly damaged.

Chefoo, August 13.—The cruiser Novik escaped from Tsing Chou at the expiration of twenty-four hours.

RUSSIA PLACING A PROTEST.

St. Petersburg, August 13th.—The imperial government has prepared a strong protest in regard to China's action in permitting the Japanese destroyers to cut out the Russian boat at Chefoo. The protest will be forwarded to the various powers through the ambassador at St. Petersburg.

This protest action is based upon the official report of the Russian consul at Chefoo, which is very explicit on the dismantling of the Ryeshitelin, saying not only were the breach blocks of the guns removed, but the engines rendered useless. The vessel, therefore, was reduced to the condition of a hulk. The consul also reported that the Japanese fired upon Russian sailors while they were in the water, but that the majority of the crew survived. Captain Shevostsky was seriously wounded.

INTERNATIONAL COMPLICATIONS MAY ENSUE.

St. Petersburg, August 13.—It is stated here that both France and Germany are supporting the protest of the Russian government against the action of the Japanese torpedo boat destroyers in attacking the Russian torpedo boat destroyer Ryeshitelin in the harbor of Chefoo.

UNITED STATES WILL INTERFERE FOR PEACE.

Washington, August 13.—The State Department here is gravely concerned at the trend of events in the far east. It realizes the situation is full of danger and the main apprehension of the officials here is that the Chefoo incident will break down the agreement between the powers and plunge China into the war on the side of the Japanese. The consequences of such an act on China's part upon the existing alliance between Japan and Great Britain and between Russia and France can only be conjectured and the prospect is so alarming that the American State Department will do its utmost along with other neutral powers to effect such a settlement of the incident as shall preserve the agreement as to China in full force.

JAPS WILL TAKE QUICK ACTION.

Tokio, August 13.—The Japanese government will immediately make representations to Germany concerning the Russian warships which have taken refuge at Kiao Chou.

RUSSIAN WARSHIPS MUST GET OUT.

Berlin, August 13.—The German authorities at Kiao Chou, have instructed the Novik and Pallada to leave within twenty-four hours. The Czarevitch is too badly damaged to put to sea, and will be dismantled. A report from Kiao Chou says the Russian warships still there are the battleship Czarevitch, the protected cruisers Pallada and Novik and three torpedo boat destroyers. The Czarevitch, which is badly damaged, is being repaired with German assistance. The report has been received here that Admiral Witthoff was killed in the naval battle Wednesday.

Shanghai, August 13.—The Russian protected cruiser Askold arrived at Woo Sung today with the fifth funnel gone close to the dock. All the funnels were riddled with shell holes. One gun on the port side was dismantled and several large shell holes above the water line have been made. One lieutenant and eleven men were killed and 50 wounded.

Strathcona Fair

Playdealer:

Strathcona's fair was again the victim of circumstances. Nowithstanding the delightful sunny weather Northern Alberta has enjoyed almost all summer a drenching rain spoiled the fair on what would otherwise have been the day to make it a crowning success. There was a good attendance on Tuesday and the program of attractions was run off in a very satisfactory manner. A large number of farmers and townspeople also had, however, reserved their attendance for Wednesday, which was to be the last and best day, but the rain made the roads and track sloppy, and it was found necessary to call off the program and close up the exhibition.

The display of exhibits in some lines was hardly as great as last year, though in point of quality surpassed all previous efforts. This was accounted for in a great measure by the fact that formerly a membership fee of \$1 in the Agricultural Society entitled a person to show any number of exhibits without further entrance fee, while under the new regulations an entrance fee of 10 per cent of first prize was exacted for every exhibit shown.

The vegetable display was especially fine and demonstrated in a remarkable manner the wonderful productiveness of our soil and climate.

There was a good show of horses and the Jersey and Hereford cattle were probably the best ever shown west of Winnipeg. Mr. Tough's herd of Herefords would win prizes any place in Canada if not on the continent. This is the opinion of Mr. Geddes, the judge in the cattle classes. Regarding the Jersey stock shown Mr. Geddes, who has attended almost all the fairs in the West this season, says it was the best and largest show outside the Dominion fair at Winnipeg.

An interesting feature was the exhibit of native crab apples from the farm of Mr. H. Z. Smith, of Rabbit Hill, and demonstrates the possibilities of apple culture in Northern Alberta.

An exhibit of special interest at the Strathcona fair this week was a quilt shown by Mrs. L. Rice of Clover Bar, which was made in 1823. It was made of good honest materials by faithful hands, for it is apparently as good yet as the day it was made. The speeding events on Tuesday afternoon were keenly contested.

The following is a list of the prize winners:—

I ALWAYS select the tobacco leaves that grow about the middle of the stalk. I find this leaf as filler in my Pharaoh is best because it is perfectly and uniformly ripened

and contains just enough gum to sweat properly and so promote the proper curing. The top leaves of the plant I reject—they are too tender and gummy and contain so much of the rancid bitterness of the tobacco that it would take me five years to sweat them out properly—even then they would not be satisfactory. Then I see that the immature—torn—broken and injured leaves are discarded. The filler of my Pharaoh contains only clear—well nurtured—well matured—well cured leaves—the select of each year's Cuban crop.

PARLIAMENT

Ottawa Correspondence:
Annual Want of Confidence Motion

The feature of yesterday's session was the annual motion of want of confidence. It has been the custom of the opposition since 1896 to move at the close of the session a general indictment of the policy and administration of the government, the idea being by general denunciation of their opponents to cover up their own shortcomings. The opposition are strong in generalities, and a want of confidence motion which only deals in generalities is their strongest point. It is on questions of detail, or more properly of fact, that they fail to face the House and country with a decisive vote. Yesterday the duty of moving the motion and making the main speech in support of it, was placed upon Mr. Bell, of Pictou, N.S., who made a very elaborate and lengthy speech in support of his resolution, which was as follows:—

"While the total taxes collected for the year ending June 30, 1897, were \$28,648,228, namely, customs \$19,578,247, excise \$9,103,980, or \$8.57 per head of population.

"Notwithstanding the pledges of the Liberal party in opposition to reduce taxation, the total taxes collected for the year ending June 30, 1903, were \$49,019,505, namely, customs, \$37,001,726, excise, \$12,017,779, or \$8.87 per head of population.

"And further it appears from the statement of the finance department that the total taxation for the year ending 30th June, 1904, is \$53,000,000, namely, customs, \$40,449,906, excise, \$12,550,094, and when all returns are received may reach a total of \$53,800,000, or \$9.57 per head of population.

"That the government maintains the expenditure of the country at a figure out of proportion to the increase of population, so that the total expenditure for the year ending June 30, 1904, as stated in the budget speech by the minister of finance, has reached the vast sum of \$96,000,000, namely, consolidated account \$54,500,000, capital account, \$11,000,000, exceeding the total expenditure for the year ending June 30, 1897, by \$23,571,244.

"That the total estimates for the year ending June 30, 1904, are \$77,774,000, and that of these estimates nearly \$10,000,000 have been submitted on or after July 25th, when a careful consideration of the items is no longer possible.

"This House regrets that notwithstanding the pledges of the Liberal party in opposition to reduce taxation and expenditure, the government is steadily increasing taxation and expenditure and is thus setting an example of wasteful and extravagant management of a character which must work serious injury to the people and interests of Canada."

The Motion of the 8. section Motion

It will be noted that the resolution contained two allegations or charges, one that the present government had increased the taxation of the country, and the other that it has unduly increased the expenditure; but the main part of Mr. Bell's address was devoted to the effort to prove that his native province of Nova Scotia, from which also hail the leader of the opposition and the Minister of Finance, received especially unfair treatment from the government in the matter of both high taxation and small expenditure. It would be well to compare this part of Mr. Bell's address with his resolution, because this was the real effort, and not merely the restatement of the yearly charge of the opposition against the government contained in the resolution.

The Attack was on the Minister of Finance

The Minister of Finance is the leading member of parliament from Nova Scotia, which sends a large majority of government supporters, while it is also the home of the leader of the opposition. Mr. Bell's effort was to discredit the Minister of Finance in his own province and by so doing improve the position of the leader of the opposition in the same province.

To do so, he thought it well, in his speech, to claim unfair discrimination against Nova Scotia in the matter of taxation and expenditure, while at the same time in his resolution he attacked the government for having increased the general taxation and general expenditure. That is to say, he condemned the government in his resolution for having increased the expenditure, and condemned it in his speech for not having made a sufficient expenditure in Nova Scotia.

Nova Scotia is Wronged What About Other Provinces

A careful survey of the estimates will show that however much Nova Scotia may be entitled to on the merits of the case, it has certainly not come out second best in the distribution of the public moneys. If in view of the estimates as they are presented Nova Scotia has not received a sufficient share of the public moneys, to what point must the general expenditure be increased in order that Nova Scotia may receive what Mr. Bell claims it is entitled to receive a fair proportion with the other provinces.

Bell's View the View of all

The stand taken by Mr. Bell is the stand taken by every member of the opposition. While condemning the government for having spent so much money in bulk, no member of the opposition nor any group of members during the whole life of the present government since 1896, has ever objected to an expenditure of public moneys except it were the increase of salary of a supposedly Liberal official, while the pages of Hansard are crowded with demands made by members and groups of members of the opposition for increased expenditures in almost every line of the public service, and specially items which would mean increases of salary to supposedly Conservative officials.

Bell's Motion Condemns the Opposition

It is fairly arguable that the government has unduly increased the public expenditures, and it is as fairly arguable that their expenditures have only kept pace with the requirements of a rapidly developing country. But in any case it does not lie in the mouths of their opponents who have never challenged a single expenditure and who have consistently and persistently urged increased expenditure, to condemn them because of the amount of expenditure which has been made. A reconstructed opposition prepared to take a firm stand for economical administration and decreased expenditure, which consistently upheld that policy in fact as well as theory, in detail as well as in general, would not doubt receive a very considerable support from the electorate the merits of such a policy. But an Opposition which has consistently and persistently demanded increased expenditures throughout all but a few hours of every session cannot expect credit from people who desire to support a policy of economy because for a few hours they declare themselves opposed to the amount of the expenditure which has been made.

Increase of Taxes not Increase of Taxation

On the question of increase of taxation the Opposition depend upon a quibble on words to mislead the public. That more taxes are collected now than in 1896 is of course admitted, but that the taxation has been increased, that is to say, the rate of taxation, no one can assert. The burden is in the rate of taxation and not in its amount. The greater amount is because of the greater business of the country and is undoubtedly more easily borne than the smaller amount of '96 on the disproportionately smaller business of that year. If it could be asserted that a dollar of business today carried three cents of taxation as against two cents in '96, the case of the Opposition would be established; the burden of taxation would certainly be increased. But if a dollar of business to-day carries only two cents of taxation where it carried three in '96 the burden of taxation is decreased, although, by reason of the greater number of dollars handled in the business of the country, the amount has been very greatly increased.

What Might be Done but not by the Opposition

It may fairly be argued that in view of the increase in the amount of taxes, raised during the past seven years it would have been in order for the Government to have still further decreased the rate. But that is not an argument that can be made by the Opposition, nor can that party claim support from the people of the country who look for reduced taxation on that ground; for each year since 1896, as regularly as the want of confidence motion declaiming against increased taxation and increased expenditure has been moved by the Opposition party, earlier in the session that party has supported a want of

THE NEW JAIL

BUILDING

Construction is Being Rapidly Pushed Forward. Completion this Fall

Splendid progress is being made with the Edmonton jail, in the north east corner of the town, about a mile from the main street.

The property has been well dried by the construction of over nine hundred feet of drains.

Construction work has been almost at a standstill this week, as the contractors are waiting on the arrival of iron structural work from Winnipeg. This material will be here in a day or two and the work will again be rushed with all possible speed. Upwards of seventy men have been engaged on the jail work alone, and this large force of men will push the work along at a good rate. Although the contractors, Messrs. May and Copp, have until June 1st of next year to complete the contract they expect to have the roof on the building this fall and a good part of the finishing work completed.

A very interesting part of the construction work at the jail is the making of the concrete blocks, which are to be used for the flates, cells, cell-fronts, etc. These are moulded into all sorts of shapes and sizes, according to the use to which they are to be put. An especially good quality of blocks are being turned out.

The basement walls are now completed and work starts immediately on the ground floor. Over eight hundred thousand bricks are being used in the construction of the jail, and vast piles of brick, sand, gravel are in evidence. It is estimated that over twelve hundred barrels of cement will be used.

The entrance to the jail is from the west, three hundred feet back from the road. A well has been constructed about thirty feet from the jail which is fifty-two feet deep. An engine pumps the water from the well to a sixteen foot tank set up from the ground. From here it is distributed by hose to the different parts of the building where needed. The engine is also used to furnish power to drive a small saw to cut lumber up into the required lengths.

The building will consist of a basement, ground floor, first floor and attic, and will be 114 feet by 68 feet by 48 feet. The plan calls for a well-constructed and substantial building with all the latest fittings. The basement will consist of one section containing fourteen cells and another part in which will be situated a laundry room, boiler room, jailer's cellar, a daily store room and three winter store rooms. Off the basement and to the rear are situated the coal bins and acetylene gas generating room. In the basement are two double-barred punishment cells. On the ground floor are other fourteen cells and in another section of this floor are a library room, kitchen, guard room, jailer's office, and a large store room. Fourteen additional cells are situated on the first floor or third storey. There are a kitchen, dining room and parlor for the jailer's use and large workrooms for the male and female prisoners. In the attic are four bedrooms and a large store room. There are forty-two cells altogether. Twenty-one of these are for convicted male prisoners, seven for male prisoners awaiting trial, seven for female prisoners awaiting trial and five for convicted female prisoners and two punishment cells.

COMMISSIONERS WILL COME

A telegram from the Hon. A. G. Blair announces that the board of railway commissioners will arrive in Strathcona on Wednesday afternoon, August 17th.

Sports

Telegram:

A matched race for \$1,000 a side has been arranged between W. H. Barry, of the Royal Oak, Market street, owner of the brown gelding Royal L, which won the gentleman's road race last Friday, at the Exhibition, and T. W. Bishop, owner of Prince Vale. The event is set for September 15th at the fair grounds. The match was arranged on Saturday night, when a forfeit of \$50 was deposited by the interested parties with Thomas Lee, of the Western Cigar Factory, North Main street. Another \$150 is to be posted by next Thursday, \$300 more by September 1 and the balance of \$500 by September 14th. The race will be mile heats, best three in five. Each party selects a judge and these two will choose a third. The question as to whether the track is fit will be settled by them. The gate receipts are to be divided, 60 per cent. to the winner and 40 per cent. to the loser. The race is the outcome of an argument between the men as to the speed of the two animals and there will doubtless be considerable money bet on the match around local sporting resorts.

Cup and Medals

Wetaskiwin Times:

As an incentive to keep up the baseball enthusiasm in Northern Alberta, Norman D. Jackson, the new proprietor of the Criterion hotel, has handed over a handsome trophy and five beautiful medals to the Wetaskiwin club to defend against all clubs north of Calgary. The cup itself is valued at over \$60. As Red Deer, Lacombe, Strathcona, Edmonton and Fort Saskatchewan are expected to play for this trophy and medals, some hot games may be expected before the season closes.

DISASTROUS BOILER

EXPLOSION

The Kinketh Paper Company's Mill Badly Wrecked. No loss of life

Bulletin Special Dispatch. St. Catharines, August 13.—A disastrous boiler explosion occurred here last night, whereby a large section of the Kinketh paper company's mill was wrecked.

The entire business section of the city was severely shaken, breaking several windows. That there were no lives lost is most remarkable.

Both shifts had been in the boiler room just a few minutes before the explosion occurred, for it was in this room, where the employees changed their clothes at the moment at which the crash came.

PURCHASE PREMISES

HARVEST EXCURSIONS

ARRANGED

Western Crops are in Splendid Condition and a Beautiful Yield is Expected

Bulletin Special Dispatch. Winnipeg, August 13.—Hon. R. P. Roblin arrived yesterday from Brandon, where he had been visiting the fair. He is delighted with the evidences of agricultural prosperity. Mr. Roblin says the crops all along the line were ripening fast and there was every hope that the harvest of 1904 would fulfill the best expectations of the farmers and grain dealers of the country.

The condition of the wheat was first-class, the heads being heavy and the prospects of a bumper crop being assured.

The first official announcements in regard to annual harvest excursions from eastern Canada to Manitoba and the Northwest have reached the passenger department of the Canadian Pacific Railway here. So far six excursions have been provided for, extending over the period from August 20th to September 12th. The fare is \$12 from any point east of Sault Ste. Marie.

The Happy Combination
"Two in One" Shoe Polish

The best polish ever made for Ladies' Shoes, because it shines quick as a wink, keeps shoes like new patent leathers, and WON'T SOIL THE CLOTHING. It's **A Paste**—that shines quicker—hold its gloss longer—and makes shoes wear longer—than any liquid-and-paste polish. It keeps ladies' fine shoes soft and easy—prevents them from cracking—feeds the leather—keeps it damp-proof and water-proof.

"Edmonton district need not think it can rest on a reputation gained a couple years ago." These were the words of T. Daly of Clover Bar on his return from the Dominion Exhibition in Winnipeg. A couple years ago Edmonton sent a magnificent exhibit of her agricultural products to the Winnipeg Exhibition and the district gained a continental reputation from it. This year there was only one exhibit, five bushels of oats, exhibited by Mr. Daly. This exhibit easily captured the first prize for the best sample of oats on the grounds. This is merely an earnest of what the district can do in the line of agricultural products. This exhibit of oats attracted a great deal of attention but naturally cannot do for the district anything like what a large display of almost equally good grains would do. Almost every other town in the West was represented by some exhibit or collection of exhibits while Edmonton which should have surpassed everything at the Exhibition in the line of oats and vegetables made no effort to further enhance her enviable reputation throughout the continent as a choice mixed farming district. Mr. Daly states that the display of agricultural products at the Strathcona Exhibition this week very far surpassed that at the Winnipeg Dominion Exhibition. Edmonton district oats have a splendid reputation among Manitoba grainmen. Crops in Western Manitoba, Assiniboia, and Southern Alberta are behind those of Northern and Central Alberta. Mr. Daly noted a very great difference in the evidences of prosperity along the Calgary and Edmonton line and along the main line of the Canadian Pacific Railway. North from Calgary the villages take on a much more tidy appearance. The houses are neatly painted, a striking contrast to the towns along the main line.

BOARD OF TRADE

A council meeting of the Board of Trade was held in the Town Hall yesterday morning commencing at eleven o'clock. Those present were President Morris, J. B. Mercer, G. R. F. Kirkpatrick, T. W. Lines, J. H. Gariepy, F. T. Fisher, J. H. Picard, E. C. Pardee, Thos. Bellamy, Donald Ross, and F. F. Tims, Secretary-Treasurer. The minutes of the last general meeting were read and adopted. The sending of an exhibit of the products of the Edmonton district to the Toronto Exhibition was discussed. A committee composed of Donald Ross, T. A. Stephen, and C. W. Sutter was appointed to arrange an exhibit and have it forwarded to Toronto. The appointing of a delegate to accompany the exhibit was deferred until a later time.

Messrs. Gariepy and Lessard made an offer through the Board of Trade of a free site for a post office on the corner of McDougall and Rice streets. The Board of Trade passed a hearty vote of thanks to this firm for their offer and ordered a copy of the motion sent to the Town Council.

The advisability of having the railway commission sit in Edmonton came up for discussion. The Board stated their reasons for deciding not to have the railway commission come to Edmonton viz.—This commission has nothing to do with the transportation commission which will visit the West later, and that the Board had a standing advertisement in the local papers for a month asking any persons who had any grievances to lay them before the Board, and that not a single complaint had been received.

The meeting then adjourned.

LOCAL TAX RATES

The city council met in special session Thursday evening. The estimates for the current year were discussed. The rate was fixed at fifteen mills on the dollar for Roman Catholics and seventeen mills on the dollar for Protestants.

testants. The assessment last year was fifteen and sixteen and a half mills on the dollar. The extra 1-2 mill is made up of a quarter mill for municipal expenditure, and the other on the general debenture rate. All property owners adjoining water and sewer mains and who have not made water connections, will be charged a special rate of three mills.

River Notes

Prince Albert Advocate: The completion of Captain Coates' new steamer is being seriously delayed by the non-arrival of her boiler. The H. B. Co.'s steamer Saskatchewan, has loaded with flour at Prince Albert, and is leaving to-day for Fort Pitt. A flatboat, loaded with lumber, in tow of the Hudson's Bay Co.'s steamer, Saskatchewan, consigned to the Elbow, grounded on the stone bar opposite town yesterday afternoon, drifting into the rocks while waiting for the lowering of the ferry cable. The boat is not much damaged, but will have to be unloaded before she can be got off. A delay of a couple or three days will result.

—Lacrosse practice tonight.
—Lacrosse in Strathcona Tuesday evening. Edmonton vs. Strathcona.
—Train on time.

—There were a couple of very exciting runaways on Jasper avenue yesterday.

—The Wetaskiwin Public School board have decided to open a department for the preparing of candidates for third class certificates.

—"The relation of this life to that which is to come" will be the subject of Pastor McDonald's address on Sunday evening at the Baptist church.

—The Sunday school picnic of the Edmonton Presbyterian church will be held on the Exhibition grounds park on Civic Holiday, August 23rd.

—Wetaskiwin Post: The Cummings Electric company, of Edmonton, commenced operations a few days ago on the interior electric light wiring contract, which they have secured from the council.

—The Liberal Association are making the final arrangements for the complimentary banquet which will be tendered Frank Oliver, M.P. on Friday evening next.

—The first issue of the Wetaskiwin Post has been received at this office. It is a six-page, seven column, paper and has good advertising patronage. It claims to be independent in politics.

—The Wetaskiwin Times states that a man was brought before H. D. Mills, J.P., Monday charged with killing a deer last June. He pleaded guilty and was fined ten dollars and costs. This should be a warning to those who are killing game out of season.

—The adjourned inquest in connection with the drowning of the Kuhnert child was held in the fire hall yesterday afternoon, but was immediately adjourned pending the finding of the body of the missing woman.

—The C. P. R. freight handling record has been broken at Winnipeg with something over for good measure by Sunday's figures. Between midnight Saturday and midnight Sunday, a period of 24 hours, 690 carloads of freight were handled in the Winnipeg yards. The strings of cars made twenty-five freight trains, the majority of which were sent west.

—Plaindealer: The new creamery at Leduc began business this week and gives promise of being a success. Already the cream from 500 cows is being continued and the proprietor, Mr. Curtis, expects that this patronage will be doubled next season. It is proposed to operate a cheese factory in the winter.

—The second Methodist church in the east end of the town has secured the services of H. Stutchbury as choir leader. Mr. Storey will act as organist. The first choir practice will be held on Monday evening, August 22nd, at eight o'clock sharp. Notices of the opening of this church will be given later.

—Herald: The Cushing factory began operations yesterday after a week devoted to repairs. Nearly 100 men are given employment at the mill, receiving high wages. It is one of the largest plants of its kind west of Toronto and supplies the bulk of the manufactured articles for building in Alberta. The plant has been enlarged and much costly machinery installed recently. The men cannot handle all the business that is coming in steadily.

—The people of Clover Bar have arranged to hold their annual picnic in aid of the Edmonton Public hospital funds on Saturday 20th instant, at Hortonville. A good program of sports is being prepared. Frank Oliver, M.P., A. C. Rotherford, M.L.A., and other public men are expected to be present to address the gathering. It is also expected that a brass band will be in attendance. It is to be an old-time basket picnic and everybody is expected to provide for himself and his friends, the necessary refreshments.

—Jas. McGeorge is receiving numerous enquiries from different points in the States asking for information regarding the Edmonton district. Last night such a letter was received from John I. Carter, of Chatham, Penn., and another from E. J. Tracy, of Sioux Falls, South Dakota. Mr. Tracy speaks of purchasing two sections of land in this district. Copies of the Sutter pamphlet, last Fall's Illustrated Edmonton Bulletin and other information was sent them.

—Herald: New settlers continue to find their way to Alberta. Yesterday afternoon's train from the east brought nearly a score of Irish immigrants who intend to settle somewhere near Edmonton. They were all good-looking people and had a prosperous air. Yesterday morning 14 French farmers arrived. They are en route to the French colony near Ruffo lake. These Frenchmen are well dressed and neat and few would

have suspected that they had come to this country to follow farming.

—Herald: The local land office has been a very busy place during the past three days. A delegation of Omaha and Nebraska people are in the city looking up desirable homestead entries. Frank Starnes, J. A. Streethens, A. Bagg constitute one party from Omaha. They are registered at the Royal. They also represent a large number of other farmers from that section in the capacity of a scouting expedition. These prospectors will go up and down the line from Calgary inspecting the land and making inquiries that will enable them to give their people some accurate information about the country.
